10

After collecting feedback on Step 3, Stage 14, do Step 4, Stages 15, 16 and 17

TCLR-test Instructions

- Download the test you want to apply.
- Read the description of the test.
- Read the questions on the test.
- On the focus area, click the right box (Yes, No or N/A).

Notes on Test

- Give a realistic answer not an assumption.
- Use the comment section on the right to detail your answer where necessary.
- Use N/A (not applicable) only if that focus area is not relevant to the project. Your project will be disqualified if it lacks clarity.
- Use the general comments section to give additional details or precisions to the project.
- All tests are in Word format to enable you give enough details.

Practical Project Tools Instructions

- The Treff-End Project Tools describe how you get a project idea from God, design, implement and refine it.
- The Treff-End Practical Project Tools help you put that knowledge into practice.
- All you need to do is download the Treff-End Practical tools from our website and do all the exercises in the order shown on the left from 5 to 10.
- We did most of the technical work for you. Your task is to pray and reason to generate a fun project idea.
